

New Online Login Process for Aesop/Frontline

The platform for Aesop/Frontline has changed in order to increase security, and the new online login process when you first sign in is outlined below. Note: your phone login information will NOT change.

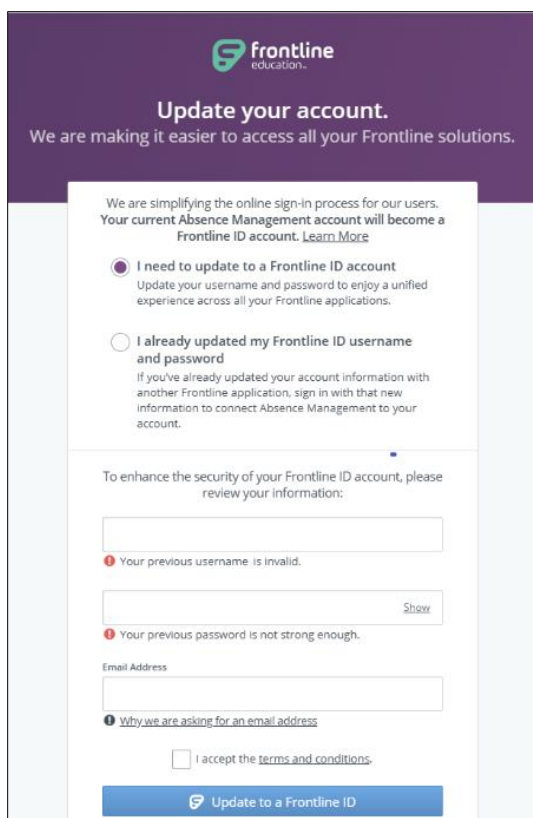

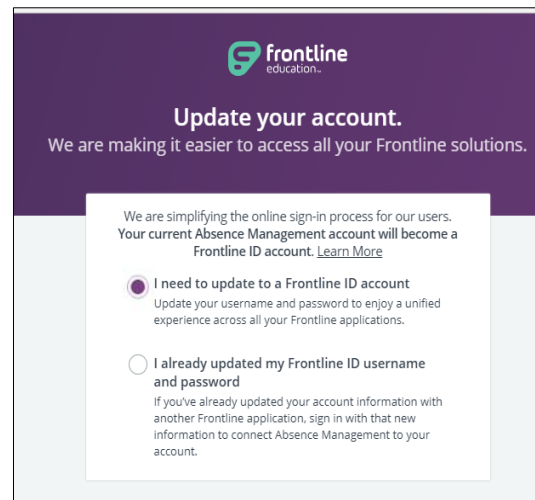

The new URL for Aesop/Frontline is <http://aesoponline.com>. This link can also be found on our website under “For Lane ESD Staff”.

The **Sign In** page will appear. Enter your current username and password, and then click Sign In. The system recognizes your current credentials and prompts you to set up your new Frontline ID account.

2) Click the radio button beside “**I need to update this account.**”

The system compares your current login credentials with the new single-login requirements and identifies whether anyone already has the username you entered.

Your **new username** must contain 1 alphabet character and at least 4 total characters. Your **new password** must have 1 alphabet character, 8 total characters, and 1 number or special character.

If your current credentials meet those requirements, you can create your new Frontline ID account with your current credentials or choose new ones.

Once complete, enter an email address (if it has not pre-populated) for password recovery and click the box next to “I accept terms and conditions”.

Click “**Update to a Frontline ID**”, and you will then continue to the current Aesop/Frontline homepage.
